Dear Sir/Madam:

The United State Environmental Protection Agency (U. S. EPA) has delegated the responsibility for conducting the Federal 1997 Hazardous Waste Report (Biennial Report) for sites in California to the Department of Toxic Substances Control (DTSC). All Resource Conservation and Recovery Act (RCRA) Large Quantity Generators (LQGs) and/or facilities that treated, stored, or disposed of RCRA hazardous waste on site during the reporting period of January 1, 1997 to December 31, 1997 are required to file a Federal 1997 Hazardous Waste Report. Information for this report was due to DTSC on March 1, 1998.

DTSC's records indicate your company generated RCRA waste in calendar year 1997 which may be reportable in the 1997 Biennial Report. Our records indicate that reporting materials were sent to you in January 1998, yet we have no record of a response from your company. If this information is in error and you feel your company is exempt from filing the Biennial Report, please complete and return the attached exemption form. If you must file, your report must be completed and returned to DTSC no later than two weeks from the receipt of this letter.

If you need Biennial Report materials, please call (916) 322-2880 and leave your name, EPA ID number, and mailing address, if different from the address shown above. If you have questions regarding reporting requirements for the 1997 Biennial report, please call the Biennial Reporting Staff at (916) 322-2880.

Sincerely,

Ted N. Rauh  
Deputy Director

## 1997 HAZARDOUS WASTE REPORT EXEMPTION REQUEST FORM

If this site is **not** required to file the 1997 Hazardous Waste Report, please complete and return this form. U. S. EPA uses this information to record sites that are not required to report. After completing the form, return it to DTSC at the address provided below.

This site is not required to file the 1997 Hazardous Waste Report because:

- ☒ The site was not a RCRA Large Quantity Generator in 1997;

**AND**

- ☒ The site did not treat, store, or dispose of RCRA hazardous wastes on site in units subject to RCRA permitting requirements in 1997.

It is expected that this site will not have to file the Hazardous Waste Report (CHECK ONE):
